Counter-Rotating HEAD SYSTEM

DRA-100 (BS-600-2222)
Used for grinding concrete and stone.
Works great on hard
concrete and has a long life.

TURBO (BS-600-2233)
Double row diamond blade for
grinding concrete. More square feet
for the money.

STANDARD (BS-600-2234)
Used for aggressive grinding and
removing application.

SPLITTER (BS-600-2255)
Hardmetal-coated disks for re-
moval of thin coatings.

Benefits of the BS-600

- * Water sprinkling system for polishing concrete, marble, and terrazzo
- * Spring-loaded dust shroud adapts to floor contours
- * Compact design—solid rubber wheels
- * Vacuum connection available
- * Easy operation with deadman safety switch
- * Eyebolts for lifting machine—easy handling

Features:

- *Environmentally Friendly and non-hazardous operation
- *Large diameter connection for industrial vacuum cleaner
- *Quick change of tools
- *Good ergonomics for the operator- well balanced unit
- *Powerful electric motor driving precision gearbox in a solid steel body
- *High grinding pressure
- *High productivity
- *Low vibration levels
- *Fine regular grinding patterns
