

WNS Series Intermittent Duty Vacuum

SMALL IN SIZE.
LARGE IN PERFORMANCE.

Ideal Applications:

- Vacuum-Assist Tools
- Industrial Shop Maintenance
- Dry or Problematic Materials, such as:
 - Talc
 - Lead
 - Paper
 - Graphite
 - Asbestos
 - Fiberglass
 - Carbon Black
 - Concrete Dust
 - Powder Coating Dust

WNS Series Intermittent Duty Vacuum

Expertly engineered with reliability and performance in mind.

Innovatively engineered, our modular housing is beyond durable. The compression cast composite fiberglass housing will never dent or rust, allowing for maximum longevity.

Ruwac's state-of-the-art filtration system is 99.9% efficient at 0.5 microns. Our oversized MicroClean filter eliminates premature clogging while increasing filter life. The external shaker reduces maintenance by allowing you to shake it free of debris as necessary.

Get rid of collected waste fast. Located in the rear next to the heavy duty, self-locking double casters, the foot lever quick release makes emptying the 9 gallon drop down dust pan simple and quick.

All Ruwac's modular vacuums are upgradeable to accommodate HEPA (High Efficiency Particulate Air) filters should your application require one. Our HEPA filters are 99.99% efficient at 0.3 microns and individually DOP tested and certified.

Technical Data	Baby Red WNS 1000	Little Red WNS 2220
Voltage	110*	110*
Vacuum Pressure (Hg")	7.9	7.1
Air Movement (CFM)	112	200
Filter Area (ft ²)	13 ft ²	13 ft ²
Filter Efficiency	99.9% @0.5 microns	99.9% @0.5 microns
Noise Emission (dBA)	76	78
Inlet (in.)	2"	2"
Weight (lbs.)	85	90
L x W x H (in.)	32 x 20 x 35	32 x 20 x 35

*220 volt single phase available

Specifications are subject to change without notice.

FEATURES

Our oversized filter allows large quantities of material to be filtered without loss of vacuum power.

Foot-lever actuated dustpan is ideal for dust-free emptying.

Compression cast composite housing is modular and extremely durable.

Low inlet will not let the vacuum tip over, no matter what the application.

WNS vacuums are HEPA-ready should your application require absolute filtration.
